PROJECTS

Omnifood

[pguo-omnifood.vercel.app](#)

- Built a mock website advertising a theoretical food-delivery app to learn HTML/CSS/jQuery/JavaScript
- Learned how to make a website responsive and deploy a website
- Creating a website from scratch made me appreciate a well-designed website and driven me to learn more about web development

Forkify

[pguo-forkify.vercel.app](#)

- A recipe search created using Forkify API and utilizing JavaScript, Webpack, Babel, Node
- User can search for a specific recipe and add ingredients to a shopping list
- Save favorite recipes to a favorites list via local storage

Video Player

[pguo-videos-hooks.vercel.app](#)

- Learned React hooks by building a video player using YouTube API
- Video search bar and embed player with description

WORK EXPERIENCE

City of West Covina

IT Intern

July 2018 – August 2019

West Covina, CA

- As IT Intern, I was responsible for creating tickets into a ticket system of the issues, delegating the tickets to different IT members based on priority, and solving issues within my ability
 - Setting up broadcast room for weekly council meeting, creating WIFI documentation, and reviewing demos for tech products
